

## Courier and Private Mail Box

### LPK Courier Service

Laparkan Courier Service is our expedited small package service for documents and small packages weighing up to seventy pounds. Packages are accepted at any of our Laparkan offices or airport locations. Consignees may take delivery of shipments at Laparkan's facility at the destination airport after they go through the customs clearance process. Special arrangements for customs clearance and delivery can be arranged with the local LPK office.

### PRIVATE MAIL BOX SERVICE

Laparkan Airways and its Private Mail Box Service (PMB) is an established E-Commerce Solutions Provider for internet shoppers. Membership will allow you to direct on line purchases to an address in Miami Florida for dispatch to you. Packages weighing over a hundred pounds are held in Miami to allow the consignee to decide on movement by air or ocean. Other shipments are immediately dispatched by air. Transportation charges are collected at destination and the usual value added services of customs clearance and delivery are available. Alternatively customers may take delivery of documents from the local Laparkan office and affect their own customs clearance.
